Super LoiLoScope VENUS Free Update

No need for a fancy computer for Full HD video editing with our cool new features!

– Full HD H.264/AVC playback/editing now possible with Intel GPU –

October 30th 2009 – LoiLo Inc., with its principle place of business at Endo, Fujisawa, Japan, CEO: Koji Sugiyama, will be providing a new free update for Super LoiLoScope VENUS now supporting Intel® Clear Video technology; Intel® G45 Express chipset which will allow you to handle AVCHD, AVCHD Lite, Single Lens Reflex (SLR), Xacti, etc. with Full HD H.264/AVC editing. Also including a video camera capture feature with DV/HDV and webcam inside your computer, LoiLo is offering a 2 powerful new feature for a more Full HD stress free environment.

Super LoiLoScope VENUS version 1.6.1 features

- Intel® G45 Express chipset compatible
- Smooth Full HD (1920*1080 AVCHD) and MP4 video playback/edit
- 2 Parallel playback/edit possible with HD 1280*720 (i.e AVCHD Lite and MP4 video)
- * Max parallel playback for Intel® GPU: 1 Full HD 1920*1080 and 1 HD 1440*1080
- * Supporting Intel® G45 Express & Intel® GM45 Express

With powerful CPU collaboration, 2 or more playback/edit is now possible.

Please refer to our website for more information.

- Video capture feature

Connect your webcam, HDV/DV camera devices to display capture icon on your desktop.

You may also select your devices through your setting tray.

- Windows® 7 compatible

With Media Foundation included in Windows® 7 no additional codec installation required for mp4 playback/edit.

- Other additional features

1. Geforce GT220 support: 2 Full HD AVCHD playback possible with GPU only
2. Over 2GB AVI output possible with larger files such with incompressible/compressible codec
3. MPEG2 file output for Windows® 7

- Bug fixes

1. Codec elimination: Those that cause poor compatibility
2. The end of the file not playing during video playback
3. Specific mp3 file not playing
4. High CPU usage for playback

Provided: October 30th 2009 through download from <http://loilo.tv>

Automatic update will be applied for current users and installation will not be required.
